## **SWIMMING RULE QUICK REFERENCE**

This is a quick guide to basic rules of swimming for competitors at Division & Region Championships. Please ensure your swimmers are made aware of the rules that they need to adhere to.

### **GENERALSWIMMING ADVICE**

- Please ensure you check & remember what stroke you are marshalling for
- When referee blows whistle you get on the blocks or in the water to start your race
- When starter says "take your marks" you must get down and stay still on the blocks until the hooter sounds before starting. If you move before the hooter you can be disqualified for disobeying starters instructions
- At the end of the race wait until the referee blows the whistle before leaving the pool. Swimmers must exit to the side closest to them. Do not climb over the finishing end.
- **Swimsuits:** Competitors may only wear **one layer** of swimsuit. **A second suit or underwear is not permitted** beneath your swimsuit. Boys may not have a swimsuit that goes below the knees or above the navel. Girls may have any swimsuit that does not go below the knees or down the arms. Swimsuits cannot have zips.
- **Footy shorts and board shorts are not acceptable** at Region or State Championships
- It is the swimmers responsibility to marshal on time for their events. You should be ready 3 events (not heats) ahead and make your way to marshalling in plenty of time. Races will not be held up for late swimmers, and those who miss their race will not be included in a later heat.
- In all events the swimmer must surface by the 15m mark

### **BUTTERFLY**

- Swimmer must remain on their front throughout the race
- Arms must be brought forward over the water and be simultaneous
- All kick must be fly kick so feet remain together – alternating kick (like freestyle) is not permitted
- Swimmer must not stand up or otherwise break stroke eg do not fix goggles even if they fall down
- Only an undulating dolphin kick is allowed. Breaststroke or frog kick is not allowed.
- Touch for turns and at the finish must be simultaneous 2 handed touch with hands separated

## **BACKSTROKE**

- Swimmers enter water feet first on 1<sup>st</sup> whistle and gets ready by gripping the starting handles
- Swimmer must remain on their back for the entire race, this means they must stay on their back until they have touched the wall. You may not be submerged at the finish so make sure feet or an arm stays above water when you lunge for the wall
- Backstroke is swum with alternating (rotating) arms and alternating (flutter) kick
- Swimmer must not stand up or perform any other action not related to swimming backstroke – eg adjust goggles
- For turns you can either perform a tumble turn or touch on your back, then swing legs around and push off on your back. For a tumble turn as soon as you turn off your back you must commence the turning action with the final arm stroke and no kick is permitted while off your back.
- You must not pull on the lane rope while swimming

## **BREASTSTROKE**

- Body must be horizontal to the water (not tipped to one side)
- Arm and leg movements must be simultaneous
- Hands must not be brought back beyond the hip line (except first stroke at the start)
- Kick must be frog kick – dolphin kick or flutter kick is not permitted.
- Feet must be turned out in the propulsive part of the kick
- Must touch at turns and at the finish with both hands at the same time with hands separated
- Stroking must be 1 double-arm stroke to 1 double-leg kick
- Head must break surface each stroke cycle (except the first stroke at the start)
- At start head must break the surface before arms reach the widest point of the second stroke
- Swimmer must not stand up or otherwise break stroke eg do not fix goggles even if they fall down

## **FREESTYLE**

- You must swim front crawl in freestyle events including relays
- For events requiring a turn the swimmer must touch the wall at the turn
- Swimmers head must surface at or before 15m mark following the start or turn
- You may stop in a freestyle event, but must not walk on the bottom or push off if you stand (you must just float up and then recommence swimming)

## **RELAYS – Please note carefully.**

### **Most Disqualifications in relays are due to swimmers leaving early**

- Swimmers must ensure the incoming swimmer has touched the wall before they push off. For a dive start watch the hand touch the wall before you dive – your feet must still be on the block until the swimmer touches
- If swimmer is in the water they must have one hand and one foot on the wall until the incoming swimmer touches. If you let go before the swimmer touches, even if your foot is still on the wall your team will be disqualified.
- All strokes in relays must be swum according to the swimming rules for the stroke you are swimming including finishing properly.
